NATP partners with Verito to offer members discount cloud hosting and IT solutions

NATP members receive 10% off or waived setup fees

APPLETON, Wis. (Oct. 12, 2022) – The National Association of Tax Professionals is thrilled to announce its newest partnership with Verito. This partnership allows NATP members to receive discounted services from Verito, including managed cloud hosting and IT solutions tailored to tax and accounting firms.

Verito-managed hosting allows tax professionals to access their desktop tax and accounting applications from anywhere, at any time, on any device. Cloud hosting enables tax professionals to expand their team without being restricted to local talent. In addition, the flexibility of cloud servers allows firms to easily upscale and downscale their server as needed before and after tax season.

"Running a tax firm requires increased security practices due to the amount of sensitive information these specific types of businesses acquire," said NATP Director of Member Services and Data Analytics Jennifer Van Elzen. "NATP is proud to partner with Verito to offer our members a discount on its elite IT and cloud hosting services."

Verito-managed IT solutions allows firms to outsource all cybersecurity and IT-related worries to Verito's team of seasoned IT professionals. Verito's comprehensive plan covers everything from proactive monitoring, 24/7 live technical support, managed security and managed backups.

"Running a successful firm requires countless daily tasks to stay on top of compliance," said Jatin Narang, Verito CEO. "Technology is a huge responsibility, and Verito is proud to provide unmatched IT and cloud hosting services, which are critical for business owners operating in the current online threat environment."

NATP members receive either a first-year 10% discount on managed IT or a waiver of the initial setup price for managed hosting ($150 value). To learn more about becoming at NATP member, visit natptax.com/join.
