

Harry Picou, III, EA

In 1988 Harry decided to open a tax and accounting office to spend more time with his family. Later he became an enrolled agent, began conducting income tax schools to train preparers for his business, and became a public speaker. After Hurricane Katrina, Harry prepared Power Point presentations explaining KETRA 2005 and delivered them to audiences at five locations. This brightened his outlook on life and he is determined to do more to help others.
