

## Big News for Ohio Tax Professionals

### **Ohio Small Business Investor Income Deduction**

Virtually all small businesses in Ohio are now eligible for a 50 percent tax deduction on the first \$250,000 of business income. The small business Deduction enables a business owner to deduct 50 percent of Ohio net business income from the adjusted gross income they report on their Ohio personal income tax return. If the business has multiple owners, each is eligible to claim the deduction. This 50 percent deduction is available on up to \$250,000 in business income, meaning the deduction is capped at \$125,000 for each investor or owner.

Owners of and investors in Ohio businesses structured as sole proprietorship pass-through entities (PTEs) qualify for this new tax cut. PTEs include: partnerships, Subchapter S corporations (S-corps) and Limited Liability Companies (LLCs). Income generated by the business and passed through to the owners/investors is subject to the personal income tax. The deduction is first effective for income earned in TAXABLE YEAR 2013 and claimed on income tax returns filed in 2014.
